Specifications

VIVAX. Simply quality.

VIVAX is a global brand that has existed since 2004. and is currently present in more than 35 markets. As an expert in the consumer electronics category, VIVAX has the widest range of electronic devices on the market – more than 300 quality products, divided into five main categories: air conditioners, TV and audio devices, white goods and built-in white goods, small household appliances and smart devices. All electronic devices are produced according to the real needs of consumers, with proven technology and according to the latest EU standards, without deviations in quality.

One of the greatest advantages of the VIVAX brand is the excellent after-sales service supported by a branched service network in all markets.

TV devices

Top VIVAX TV devices are produced in Croatia in screen sizes from 24" to 75". TV production uses technology that is proven to work, which makes VIVAX television reliable, attractive and easy to use for everyone.

After many years of experience in the production of LED television , the VIVAX brand took a step further and was the first in Croatia and the wider region to launch the production of a line of Google-certified 4K Q LED television with the latest Android 11 operating system, which provides the fastest and best access to all applications that can be downloaded from the Google Play Store.

AUDIO devices

In the creation of VIVAX audio devices, inspiration is sought in customers and their needs. VIVAX audio devices are designed for fun, relaxation and music enjoyment wherever you are. The combination of modern design and the latest technology guarantees advanced, high-quality devices that can fit into any living space.

GOOGLE – CERTIFIED SMART TV

androidtv

VIVAX SMART TVs come with Google-certified Android TV. Install the applications you want from Google Store. Watch your favourite YouTube videos or browse through web portals from the comfort of your home.

A MILLION SHADES

 **HDR10+**

Creates deeper blacks, more vibrant pictures and always shows details in full brilliance.

SOUND THAT MAKES THE DIFFERENCE

Dolby
VISION·ATMOS

Dolby Atmos allows creatives everywhere to place each sound exactly where they want it to go, for a more realistic and immersive audio experience. Dolby Vision provides a new level of richness and precision that makes every scene look more real and nuanced.

SIMPLE CONNECTION

Use CHROMECAST option to connect your TV with your Android or Apple mobile phone or tablet PC.

SIMPLE VOICE CONTROL

VIVAX SMART TVs offer even more with the Google Assistant voice control and search. Say your voice command into the microphone on your remote control and the system will find all the relevant links.

VIVAX TV PRODUCTION

VIVAX TV devices are made in Croatia

From year to year, we provide the market with the latest technology at affordable prices. The production line of TV devices is located in Croatia and can be used for the production of TVs with a screen size from 24" to 75". Annual capacity is more than 240.000 units. Each product is subject to multiple quality control. VIVAX TVs are reliable, attractive, and affordable for everyone, and the assured service support and quality guarantee make them desirable for any home.

Every VIVAX TV device goes through a double-check quality control

We provide 100% quality control testing on each TV set! The entire process of production and quality control is managed and controlled by highly qualified experts, who ensure that our products have the highest possible quality. All TV sets are certified and compliant with all EU standards. LED TV screens are assembled with the highest technology standards and in "clean" conditions, including "clean room" and special workwear. Each screen component is subjected to additional quality control during each step of the manufacturing process.
